ONE MONTHLY FEE

- We replace your old lighting with brand new LED lighting fixtures (not just bulbs).
- There is no capital investment and you start saving 75% on your energy bill immediately.
- Off-balance sheet solution designed specifically for large corporate entities, like our clients below.

- As long as you are a customer we will replace any lights that fail. No small print, no excuses.
- That's good for your business (and the planet).

LIGHT AS A SERVICE®

INSURE YOUR SAVINGS

For a small additional fee we will **guarantee** your energy savings. Measurement & verification software ensures you can audit your energy saving in real time.

Operating Hours

Warehouse	6,552
Offices	3,120

Your Energy Consumption

Pre-install	719,901 kWh per annum
Post-install	273,947 kWh per annum
Reduction	445,954 kWh per annum

Add

£198

per month

WE MAKE IT LOOK EASY, BUT THERE'S A LOT OF MATH INVOLVED

Your lighting solution was designed with DIALux - the world's leading software for planning, calculation and visualisation of indoor and outdoor lighting.

DIALux

Layout, Light + Operating Hours Assumptions

Section	% of Space	Light Required	Height
Racking	63%	150 lux / 14 fc	23-36 ft
Cross-Dock	27%	300 lux / 28 fc	23-36 ft
Offices	10%	500 lux / 46 fc	10 ft

Our solution is based on the following data:

Industry: Logistics + Distribution
Building Size: 123,000 sq ft
Unit Rate: £0.11 per kWh

TAILOR YOUR SOLUTION

This has been prepared for you by: ava@urbanvolt.com

Want it brighter? We can add more lights.

Different unit rate? Just let us know.

Longer operating hours? Get in touch.
